

# SUPPLY CHAIN INTEGRITY POLICY STATEMENT

*At DCC Vital, we see our suppliers and distributors as long-term strategic business partners with whom we develop mutually beneficial relationships. We work with our partners to provide products and services to the highest standards of quality and integrity that we and our customers expect.*

Taking this approach protects our customers, our partners' business and reputation as much as our own. We are committed to this policy in every area of our activities and to continually develop and improve our practices. To help us to achieve this in line with DCC Group policies on Supply Chain Integrity and Human Rights, we have established our *Supply Chain Integrity and Anti-Bribery and Corruption Risk Assessment Procedure* and *Code of Practice* setting out the key ethical and legal standards that apply to the business we do with our partners. The standards are integrated into local company procedures and practices and are regularly reviewed through our Compliance Committee and governance processes.
